To my fellow CFOs in the construction industry:

I highly recommend Mobilia Consulting. I met Hannah through our local CFMA chapter. After discussing with her, I initiated a meeting with our CTO and mobile team.

Collaborating with Mobilia Consulting has brought our company substantial savings, in money and time, without any out-of-pocket cost to us. We thought we were getting favorable rates from our carrier; however, after the audit, we realized the significant savings that were available and which have now been applied.

I found it important to be involved in the decision-making process alongside my IT team since as CFO, my interests are making our company as profitable as possible, while my IT team is focused on helping us be as efficient and secure as possible. Partnership with Mobilia Consulting has required minimal effort from our people and has provided a great cost reduction strategy.

I'm very happy we have increased our income by cutting costs, and I have been given great feedback from my CTO's team. Hannah and her team of experts are quick to respond to our needs and have taught our in-house mobile department strategies we will use long term.

I urge you to give them an opportunity to show how to take savings from good to great.
