

I would highly recommend Mobilia Consulting to companies interested in tightening controls and saving money with mobile vendors.

Initially, I was hesitant to invest my valuable and limited time to listen to their presentation. However, I am glad I took their meeting and engaged Mobilia to assist us, as the implementation was fairly easy, and we continue to save thousands of dollars per month.

They performed an initial review / audit upfront and at no cost, so it was a risk-free look at the savings opportunity. The ease of implementation and their focus on a non-core activity has been very beneficial.

I'm glad that we decided to give Mobilia and opportunity to prove themselves and we look forward to a long-term partnership with Mobilia Consulting.

Sincerely,
